

BRAVO SUBLIMATION INKS

Bravo Sublimation Inks are designed for dye sublimation heat transfer printing, ideal for both polyester fabrics and polyester-coated surfaces. The inks feature with high colour saturation, pattern fineness, dye transfer rate, prolonged run-time for print head, and reduced maintenance cost.

- Industrial level of colour gamut and colour performance
- Excellent printing fluency, minimal print head and equipment maintenance
- Amazing colour fidelity and smooth ink flow at high-speed printing mode
- Suitable for digital printing without steaming and washing
