

TECHNICAL INFORMATION

The machine model	NKT FLASH 864
Print Heads	64-EX600 & EX-600RC - Circulation Heads
Rows	8 Rows
The largest printing width	1800 mm / 2600 mm / 3200 mm
Suitable for fabric thickness	2 ~ 30 mm range is adjustable
Suitable for the fabric type	Knitted or Woven Cotton, Linen, Silk, Wool, Chemical Fibre, Nylon, etc..
Types of ink	Reactive / Disperse / Pigment / Acid
The ink colour	K, C, M, Y, L, C, L, M, Grey, Red, Orange, Blue
Image type	JPEG / TIFF / BMP file format and RGB / CMYK colour mode
The printing speed	1640 m ² /hr
RIP software	Wasatch / Neostampa
Power printing unit	The whole machine 24 kw + Dryer 28 kw
Transfer medium	Belt continuous transport, automatic fabric feeding and taking-up
The work environment	Temperature 20°C, humidity 60~80%
UPS requirments	30 kw

TESTING PRINTING CAPACITY	Printing Width (mm)	Printing Precision	Carriage Speed (m/s)	Printing Pass		Printing Capacity (sq.h) Belt Speed: 600 mm/s		Printing Capacity (sq.h) Belt Speed: 700 mm/s	
				1	2	1	2	1	2
3200 mm	600DPI	12	14	1	2	1941	1106	2028	1157
				1	2	2132	1222	2239	1287
	508DPI	14	1	2	1714	1011	1800	1047	
			1	2	1865	1123	1972	1164	
2500 mm	600DPI	12	14	1	2	1714	1011	1800	1047
				1	2	1865	1123	1972	1164
	508DPI	14	1	2	1714	1011	1800	1047

NKT FLASH 864

SINGLE CHANNEL PRINTER

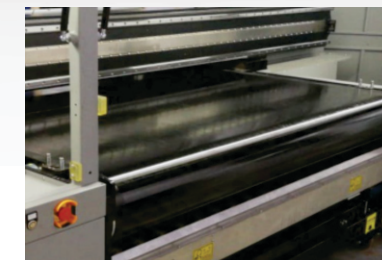

30,000
sqm/day

New Fabric Feeder can Support
10000 mtr. Fabric Batcher

Can support (3) 40"
10,000 meter
Batchers

This Machine is designed to be ultimate champion of all scanning machines of the world. With only **64-Heads** this machine can print with high quality & precision on **8-Colours**. **8-Colour** Gamut can achieve any design requirement by the user. **NKT FLASH** can give the ultimate speed of **1640sqm/hr**. Its mean **30,000sqm** in **24-hours** on **Two-pass** continues production. This Machine is equipped with **Single Channel Kyocera 64-Heads**. Its mean less heads & less maintenance cost. Which mean higher colour depth printing. This machine **3.2m width** or **127 inches**. It can print **3-print rolls** of **40 inches**, the production can go more **30,000 meters**. Fabric Feeding System is designed to operate with **10,000 meters fabric batch**. Its mean not to change fabric batcher again & again.
